Preface	3
MERGA39 Reviewers	4

KEYNOTES

How Theory-Building Research on Instruction can Support Instructional Improvement: Toward a Modelling Perspective in Secondary Geometry	13
<i>Patricio Herbst</i>	
Preamble to the Annual Clements/Foyster Lecture	32
Whither Statistics Education Research?	33
<i>Jane Watson</i>	
Learning by Leading: Dynamic Mentoring to Support Culturally Responsive Mathematical Inquiry Communities	59
<i>Roberta Hunter, Jodie Hunter, Trevor Bills, Zain Thompson</i>	

BETH SOUTHWELL PRACTICAL IMPLICATIONS AWARD

Let's Count: Improving Community Approaches to Early Years Mathematics Learning, Teaching and Dispositions through Noticing, Exploring and Talking about Mathematics	75
<i>Bob Perry, Ann Gervasoni, Anne Hampshire, Will O'Neill</i>	

RESEARCH REPORTS

Young Children's Drawings in Problem Solving	86
<i>Kamariah Abu Bakar, Jennifer Way, Janette Bobis</i>	
Assessing Children's Progress in Taking Intellectual Risks in a Mathematical Inquiry Classroom with a Positive Learning Approach	94
<i>Sue Allmond, Jude Hillman, Karen Huntly, Katie Makar, Mia O'Brien</i>	
Investigating the Impact of Context on Students' Performance	102
<i>Felipe Almuna Salgado</i>	
Developing a Theoretical Framework for Classifying Levels of Context Use for Mathematical Problems	110
<i>Felipe Almuna Salgado</i>	
Whither Ability Grouping: Changing the Object of Groupwork	118
<i>Glenda Anthony, Roberta Hunter, Jodie Hunter</i>	
Learning at the Boundaries: Collaboration between Mathematicians and Mathematics Educators Within and Across Institutions	126
<i>Anne Bennison, Merrilyn Goos</i>	
Discerning the Shared Beliefs of Teachers in a Secondary School Mathematics Department	134
<i>Kim Beswick</i>	
Opening Up the Profession: Inclusive Messages for Pre-Service Teachers from a Pedagogy Textbook	142
<i>Amber Brass</i>	

Constructing Classroom Contexts that Engage Students in the Learning of Mathematics: A Teacher’s Perspective	150
<i>Raymond Brown, Trevor Redmond</i>	
Preparing for the Numeracy Skills Test: Developing a Self-Perception for Success.....	158
<i>Leni Brown, Lisa O’Keeffe</i>	
Teachers’ Use of a Pedagogical Framework for Improvement in Mathematics Teaching: Case Studies from YuMi Deadly Maths.....	166
<i>Merilyn (Lyn) Carter, Tom Cooper, Robyn Anderson</i>	
Large-Scale Professional Development Towards Emancipatory Mathematics: The Genesis of YuMi Deadly Maths	174
<i>Tom Cooper, Merilyn (Lyn) Carter</i>	
The Priorities and Challenges of Primary Teachers’ Knowledge in their Mathematics Planning	182
<i>Aylie Davidson</i>	
A rich assessment task as a window into students’ multiplicative reasoning.....	190
<i>Ann Downton, Vince Wright</i>	
The Relevance of Mathematics: Leaders and Teachers as Gatekeeper for Queensland Senior Calculus Mathematics	198
<i>Michael Easey, Jim Gleeson</i>	
Key Elements of a Good Mathematics Lesson as Seen by Japanese Junior High School Teachers	206
<i>Marlon Ebaegu, Max Stephens</i>	
“Mathematics is just $1 + 1 = 2$, what is there to argue about?”: Developing a framework for Argument-Based Mathematical Inquiry	214
<i>Jill Fielding-Wells</i>	
Interpreting Association from Graphical Displays	222
<i>Noleine Fitzallen</i>	
Numeracy for Learners and Teachers: Evaluation of an MTeach coursework unit at Monash University	230
<i>Helen Forgasz, Jennifer Hall</i>	
Numeracy and Australian teachers	238
<i>Helen Forgasz, Gilah Leder</i>	
Early Childhood Teachers’ integration of ICTs: Intrinsic and Extrinsic Barriers.....	246
<i>Jillian Fox, Carmel Diezmann, Janeen Lamb</i>	
Teachers as Designers of Effective Numeracy Tasks.....	254
<i>Vince Geiger</i>	
Designing Online Learning for Developing Pre-service Teachers’ Capabilities in Mathematical Modelling and Applications	262
<i>Vince Geiger, Liz Date-Huxtable, Rehez Ahlip, Marie Herberstein, D. Heath Jones, E. Julian May, Leanne Rylands, Ian Wright, Joanne Mulligan</i>	
Hurdles in Acquiring the Number Word Sequence	271
<i>Peter Gould</i>	
Professional learning in mathematical reasoning: Reflections of a primary teacher.....	278
<i>Sandra Herbert, Wanty Widjaja, Leicha A. Bragg, Esther Loong, Colleen Vale</i>	
Investigating Declining Enrolments in Secondary Mathematics.....	287
<i>Gregory Hine</i>	

Collaboration around observation of teaching: Powerful professional learning	295
<i>Louise Hodgson</i>	
Assessing children’s strategy choices to make better decisions about remediation	303
<i>Sarah Hopkins</i>	
Improving the efficiency of problem-solving practice for children with retrieval difficulties.....	311
<i>Sarah Hopkins, Celeste de Villiers</i>	
A case study on the impact of teacher mathematical knowledge on pedagogical practices.....	319
<i>Sally Hughes</i>	
Sliding into Multiplicative Thinking: The Power of the ‘Marvellous Multiplier’	328
<i>Chris Hurst, Derek Hurrell</i>	
Assessing Children’s Multiplicative Thinking	336
<i>Chris Hurst, Derek Hurrell</i>	
Commognitive Analysis of Undergraduate Mathematics Students’ Responses in Proving Subgroup’s Non-Emptiness	344
<i>Marios Ioannou</i>	
Investigating the Interconnections between Cognitive, Affective and Pedagogical Issues in the Learning of Group Theory	352
<i>Marios Ioannou</i>	
An Ecological Analysis of Mathematics Teachers’ Noticing.....	360
<i>Dan Jazby</i>	
Middle Leadership: Critical Variables in Building and Implementing Digital Reforms in Primary Mathematics Education.....	368
<i>Robyn Jorgensen, Janeen Lamb, Kevin Larkin</i>	
A Collaborative and Reflective Approach to Teaching for Metacognition.....	376
<i>Berinderjeet Kaur, Lai-Fong Wong</i>	
Staff Development: The Missing Ingredient in teaching Geometry to Year 3 Students	383
<i>Kevin Larkin, Peter Grootenboer, Peita Lack</i>	
Changes in Teachers’ Knowledge and Beliefs about Mathematics and Mathematics Teaching: A Case Study	391
<i>Laurinda Lomas, Doug Clarke</i>	
Sustainable improvements in student mathematics learning and disposition as a result of Prepare 2 Learn intervention	399
<i>Bernadette Long</i>	
Spatial Reasoning Influences Students’ Performance on Mathematics Tasks	407
<i>Tom Lowrie, Tracy Logan, Ajay Ramful</i>	
Early mathematical competencies and later outcomes: Insights from the longitudinal study of Australian children.....	415
<i>Amy MacDonald, Colin Carmichael</i>	
“I believe the most helpful thing was him skipping over the proof”: Examining PCK in a senior secondary mathematics lesson.....	423
<i>Nicole Maher, Helen Chick, Tracey Muir</i>	
Improving the Intellectual Quality of Pedagogy in Primary Classrooms through Mathematical Inquiry.....	431
<i>Katie Makar</i>	

Children noticing their own and others' mathematics in play	439
<i>Amber Marcus, Bob Perry, Sue Dockett, Amy MacDonald</i>	
The Role of Reasoning in the Australian Curriculum: Mathematics	447
<i>Catherine McCluskey, Joanne Mulligan, Mike Mitchelmore</i>	
Exploring the Cognitive Demand and Features of Problem Solving Tasks in Primary Mathematics Classrooms	455
<i>Melody McCormick</i>	
A Professional Experience Model for Primary Pre-service Teachers Specialising in Mathematics.....	463
<i>Heather McMaster, Michael Cavanagh</i>	
Young Indigenous Students en Route to Generalising Growing Patterns.....	471
<i>Jodie Miller</i>	
Developing Conceptual Understanding of Fractions with Year Five and Six Students.....	479
<i>Judith Mills</i>	
No more 'What are we doing in maths today?' Affordances of the Flipped Classroom Approach.....	487
<i>Tracey Muir</i>	
Experiencing mathematics for connected understanding: using the RAMR framework for accelerating students' learning	495
<i>David Nutchey, Edlyn Grant, Lyn English</i>	
A Preliminary Analysis of the Linguistic Complexity of Numeracy Skills Test Items for Pre Service Teachers.....	503
<i>Lisa O'Keeffe</i>	
The Power of Creativity: A Case-Study of a Mathematically Highly Capable Grade 5 Student.	511
<i>Linda Parish</i>	
Competence with Fractions in Fifth or Sixth Grade as a Unique Predictor of Algebraic Thinking?.....	519
<i>Catherine Pearn, Max Stephens</i>	
It's Only Maths: The potential impact of a mentoring project to ameliorate mathematics anxiety in teacher education students	527
<i>Timothy Perkins</i>	
History-infused Lessons in Introductory Calculus at the Secondary level: Students' Learning and Perceptions	535
<i>Wei Beng Poh, Jaguthsing Dindyal</i>	
Supporting Teachers Developing Mathematical Tasks With Digital Technology	543
<i>Iresha Ratnayake, Greg Oates, Mike Thomas</i>	
Investigating Students' Mathematical Difficulties with Quadratic Equations	552
<i>Bronwyn Reid O'Connor, Stephen Norton</i>	
Learning from Lessons: Teachers' Insights and Intended Actions Arising from their Learning about Student Thinking.....	560
<i>Anne Roche, Doug Clarke, David Clarke, Man Ching Esther Chan</i>	
Supporting Children with Special Needs in Learning Basic Computation Skills: The Case of Mia.....	568
<i>Thomas Rottmann, Andrea Peter-Koop</i>	

Insights from a financial literacy task designer: The curious case of problem context.....	576
<i>Carly Sawatzki</i>	
High school students' knowledge of a square as a basis for developing a geometric learning progression.....	584
<i>Rebecca Seah, Marj Horne, Adrian Berenger</i>	
Understanding Time: A Research Based Framework	592
<i>Margaret Thomas, Doug Clarke, Andrea McDonough, Philip Clarkson</i>	
Time: Assessing Understanding of Core Ideas.....	600
<i>Margaret Thomas, Andrea McDonough, Philip Clarkson, Doug Clarke</i>	
Developing Teachers' Reasoning about Comparing Distributions: A Cross-Institutional Effort	608
<i>Dung Tran, Hollylynne Lee, Helen Doerr</i>	
Quality of Life: Domains for Understanding Maths Anxiety in First Year Pre-service Teachers through Identity Work	616
<i>Sue Wilson</i>	
Developing mathematical content knowledge for teaching: One preservice teacher and her planning	624
<i>Susanna Wilson</i>	
Visualisation and Analytic Strategies for Anticipating the Folding of Nets	632
<i>Vince Wright</i>	
Developing early Place-value Understanding: A Framework for Tens Awareness	640
<i>Jenny Young-Loveridge, Brenda Bicknell</i>	
Distribution of high achieving students on NAPLAN across schools: Implications for policy and teacher training.....	648
<i>Simone Zmood</i>	

SYMPOSIUM

Teacher actions that encourage students to persist in solving challenging mathematical tasks...	657
<i>Naomi Ingram, Chris Linsell, Marilyn Holmes, Sharyn Livy, Peter Sullivan</i>	
Perceptions of Challenging Tasks and Achievement by New Zealand Students	661
<i>Chris Linsell, Marilyn Holmes, Naomi Ingram, Sharyn Livy, Peter Sullivan</i>	
A highly capable Year 6 student's response to a challenging mathematical task	665
<i>Sharyn Livy, Naomi Ingram, Marilyn Holmes, Chris Linsell, Peter Sullivan</i>	
The intent and processes of a professional learning initiative seeking to foster discussion around innovative approaches to teaching.....	669
<i>Peter Sullivan, Marilyn Holmes, Naomi Ingram, Chris Linsell, Sharyn Livy, Melody McCormack</i>	

RESEARCH PRESENTATION ABSTRACTS

Maths-myths	674
<i>Andy Begg</i>	
Pasifika students' perceptions of mixed ability grouping in mathematics lessons.....	674
<i>Trevor Bills, Jodie Hunter, Roberta Hunter</i>	
Primary students' compassionate approach to financial decision-making	675
<i>Levon Blue, Mia O'Brien</i>	

Investigating Collaboratively-Solved Mathematical Problems in Order to Characterise the Social Essentials of Learning.....	675
<i>David Clarke, Man Ching Esther Chan</i>	
Professional Learning Teams to Increase Teacher Knowledge and Use of Feedback in Mathematics Classrooms	675
<i>Kate Copping</i>	
Exploring the Impact of Inquiry Based Learning on Students' Beliefs and Attitudes towards Mathematics.....	676
<i>Darren McGregor</i>	
Mathematics Knowledge for Teaching and the classroom environment: The role of planning and preparation	676
<i>Amy Pavez, David Nutchey</i>	
From Less Effective to More Effective Mathematics Teaching: A Self-Study of a Journey of Personal Change	677
<i>Yvonne Catherine Reilly</i>	
Implicit Mathematical Knowledge in Lecturing.....	677
<i>Dhanya Surith</i>	
Gender Inequities in Parental Involvement and Student Outcomes of Mathematics Education..	677
<i>Daya Weerasinghe</i>	
Revisiting Bruner's Scaffolding Categories: Can Creative Mathematical Thinking be Scaffolded?	678
<i>Gaye Williams</i>	

ROUND TABLE DISCUSSION ABSTRACTS

Secondary teachers' participation in STEM professional development: Challenges and opportunities	680
<i>Judy Anderson, Gaye Williams</i>	
What is the Evidence for Best Practice in Mathematics Education?.....	680
<i>Rosemary Callingham, Judy Anderson, Kim Beswick, Colin Carmichael, Vince Geiger, Merrilyn Goos, Derek Hurrell, Christopher Hurst, Tracey Muir, Helen Watt</i>	
Mathematics Support Teacher (MST): What has been the impact on the students?	681
<i>Deborah Gibbs, Fiona Fox</i>	
Provoking Contingent Moments: A New Model of Knowledge for Powerful Teaching at the Mathematical Horizon	681
<i>Chris Hurst</i>	
Mathematics and Task Design.....	682
<i>Christine Mae, Janette Bobis, Jennifer Way</i>	
Mathematical Inquiry Community	683
<i>Katie Makar, Jill Fielding-Wells</i>	
Teachers Collaborating to Accelerate Learning for Students Struggling in Mathematics	684
<i>Jill Peterson, Anne Milburn, Gaynor Terrill</i>	
Mathematics Education/Research in an Open and Big Data Era	684
<i>Theodosia Prodromou</i>	

SHORT COMMUNICATION ABSTRACTS

Consumer and financial literacy education: Engaging primary teachers and their students in mathematics	687
<i>Catherine Attard, Matt Thompson</i>	
Teaching financial literacy for social justice in mathematic classrooms	687
<i>Levon Blue, Peter Grootenboer</i>	
Breaking the Barrier Between Learning and Assessment	687
<i>Kristen Di Cerbo, Denise Jacobsson</i>	
D.A.T.A.: Data, Analysis, Then Action - National Statistics Initiative	688
<i>Peter Howley</i>	
How Middle Years Students Create and Utilize Data Models to Estimate Population: A Case Study	688
<i>Takashi Kawakami, Kosuke Mineno</i>	
A Five Question Approach to Teaching Mathematics	689
<i>John Ley</i>	
An Exploratory Investigation on the Influence of Mathematical Modelling on Students' Real-world Problem Solving Skills	689
<i>Siew Yee Lim, Hui Yi Ting, Deepa Patel, Linda Shear, Eddie Tay</i>	
Using Metaphors, Models and Multi-modalities when Teaching Year 2 Students Part-Part-Whole Relationships: A Fine Grained Analysis	690
<i>Paula Mildenhall, Barbara Sherriff</i>	
An Application of the Five Processes of Mathematical Thinking to Numeracy Sample Items ...	690
<i>Lisa O'Keeffe, Patrick Johnson</i>	
Reconceptualising Curriculum Design to Promote Students' Conceptual Understanding of Mathematics: A Focus on Fractions	691
<i>Maria Quigley</i>	
An Analysis of Senior Secondary Mathematics Written Examinations with Respect to Calculator Use	691
<i>Hazel Tan</i>	
The reSolve: Mathematics by Inquiry Protocol.....	692
<i>Steve Thornton</i>	
A Study of the Relationship between Conceptions of Mathematics and NAPLAN Numeracy Test Results.....	692
<i>Sven Trenholm, Mohan Chinnappan, Bronwyn Hajek, Helen Ashman, Amie Albrecht</i>	
Beliefs about Mathematics and Teaching when Crossing Subject Boundaries to Teach Mathematics.....	693
<i>Colleen Vale</i>	
Student views on 21st Century Teaching and Learning of Mathematics	693
<i>Bruce White</i>	
Secondary student's perceptions of what is important when they are learning Mathematics	694
<i>Bruce White</i>	
Increasing Parental Involvement	694
<i>Monica Wong, Nicola Cull</i>
