Preface	iii
List of Referees	v
Table of Contents	vii

KEYNOTE PAPERS

Gillian M. Boulton-Lewis

Making Sense of Primary Mathematics.....	3
--	---

Peter Sullivan

Seeking a Rationale for Particular Classroom Tasks and Activity.....	15
--	----

J. P. Keeves

Research in Mathematics Education in Australia: What it was- What it is -What it might be.....	29
---	----

PRACTICAL IMPLICATIONS AWARDS PAPER

Shelley Dole

Successful Percent Problem Solving for Year 8 Students using the Proportional Number Line Method.....	43
--	----

RESEARCH REPORTS

Mary Barnes

Cumulative and Exploratory Talk in a Collaborative Learning Classroom.....	53
--	----

Annette R. Baturo, Campbell J. McRobbie, Tom J. Cooper & Gillian C. Kidman

A Case Study of Teacher Endorsement of an Integrated Learning System.....	60
---	----

Andy Begg

Enactivism and Mathematics Education.....	68
---	----

Brenda Bicknell

The Writing of Explanations And Justifications in Mathematics: Differences and dilemmas.....	75
---	----

Janette Bobis & Peter Gould

The Mathematical Achievement of Children in the Count Me In Too Program.....	84
--	----

Rod Bramald & Steve Higgins

Mathematics, ICT and Effective Teaching.....	91
--	----

Christine Brew, Gilah Leder & Glen Rowley	
Mathematics Teachers and the VCE: Broadening the Educational Landscape.....	98
Peter C Brinkworth	
An Exploration of Gender Differences in Subject Choice and Belief among Year 12 Students	105
Raymond A J Brown & Peter Renshaw	
Speaking with Authority in Episodes of Mathematical Discourse.....	113
Tim Burgess	
Do Games Help the Learning of Probability?	120
Anne Buzeika	
Invented Algorithms: Teachers Face the Challenge.....	128
Rosemary A. Callingham	
Developing Performance Assessment Tasks in Mathematics: A case study.....	135
Kathy Charles & Rod Nason	
Children's Informal Composite and Truncated Partitioning Strategies.....	143
Helen L. Chick	
Jumping to Conclusions: Data interpretation by young adults.....	151
Mohan Chinnappan & Mike Thomas	
Conceptual Modelling of Functions by an Experienced Teacher.....	159
Mohan Chinnappan, Michael Lawson & Rod Nason	
The Use of Concept Mapping Procedure to Characterise Teachers' Mathematical Content Knowledge	167
Tom J. Cooper, Anne M. Williams & Annette R. Baturu	
Equals, Expressions, Equations, and the Meaning of Variable: A teaching experiment.....	177
Carmel M Diezmann	
Assessing Diagram Quality: making a difference to representation	185
Katherine Dix	
Enhanced Mathematics Learning: Does technology make a difference?	192
Helen J. Forgasz, Gilah C. Leder & Tasos Barkatsas	
Of Course I Can['t] do Mathematics: ethnicity and the stereotyping of mathematics.....	200
Patricia A. Forster	
Student Participation: Phenomenon and analysis.....	207

Peter Galbraith, Chris Haines & Mike Pemberton	
A Tale of Two Cities: When mathematics, computers, and students meet	215
Peter Galbraith, Peter Renshaw, Merrilyn Goos & Vince Geiger	
Technology, Mathematics, and People: interactions in a community of practice.....	223
Ann Gervasoni	
Teachers Exploring Numeracy Learning & Teaching in the Early Years of Schooling.....	231
Merrilyn Goos	
Understanding Mathematical Text through Peer Explanations.....	238
Sharon Gunn	
Emerging Themes in Statistics Education.....	246
Ann Heirdsfield	
Mental Addition and Subtraction Strategies: two case studies.....	253
Marj Horne	
The Development of a Framework of Growth Points to Monitor Students' Comprehension of Algebra in Grades 7-9.....	261
John Horwood	
Influences on Secondary Mathematics Curriculum in Victoria.....	269
Merv Hyde, Des Power & Robyn Zevenbergen	
Deaf Students Solving of Arithmetic Word Problems.....	275
Clive Kanes	
Mathematical Knowledge in a Mathematics Teaching Episode.....	283
Stephen Keast	
Learning Styles in Secondary Mathematics Classrooms.....	291
Gillian C. Kidman	
Grade 4, 6 and 8 Students' Strategies in Area Measurement.....	298
Mary Klein	
Agency/Numeracy: A poststructuralist analysis of the relationship between classroom mathematics and numeracy in new times.....	306
Christine Lawrie & John Pegg	
Assessment of Students' Understanding in Geometry: The difficulties in writing good questions.....	312
David Leigh-Lancaster & Ken Rowe	
Extended Common Assessment Tasks in VCE Mathematics: validity, reliability and other issues.....	320

Tom Lowrie	
Free Problem-Posing: Year 3/4 students constructing problems for friends to solve.	328
K. J. Maguire	
Children's Generated Word Problems: a case study.....	336
H. Elaine Mayo & Kevin Hannah	
The Learning Networks of Isolated Teachers: the use of audiographics communication technology to build a virtual mathematics department.....	343
Kay McClain & Paul Cobb	
An Analysis of the Teacher's Proactive Role in Supporting the Development of Symbolizations.....	351
Barry McCrae, Gary Asp & Margaret Kendal	
Learning Calculus with Supercalculators.....	359
Brenda Menzel & David Clarke	
Teacher Mediation of Student Constructions of Algebra Knowledge.....	365
Michael Mitchelmore	
How to Teach Generalisations in Mathematics?.....	373
Jonathan B. Moritz & Jane M. Watson	
The Conjunction Fallacy and Longitudinal Development of Chance Expression.....	380
Judith A. Mousley	
Perceptions of Mathematical Understanding.....	388
Ute Mueller & Patricia A. Forster	
Graphics Calculators in the Public Examination of Calculus: misuses and misconceptions.....	396
Stephen Norton	
Secondary Mathematics Teachers' Responses to Computers and Their Beliefs about the Role of Computers in Their Teaching.....	404
Lynne Outhred & Pamela F. Shaw	
Visual Representations in First Year Statistics.....	411
John Pegg & Robyn Hadfield	
An Analysis of Year 12 Students' Performances on Basic Algebra Questions.....	418
Bob Perry, Peter Howard & Brian Miller	
Some Language Issues in the Assessment of Secondary Mathematics.....	425

Robyn Pierce	
Computer Algebra Systems Facilitate Positive Learning Strategies.....	431
Mal Shield	
The Conflict between Teachers' Beliefs and Classroom Practices.....	439
Kaye Stacey & Vicki Steinle	
Understanding Decimals: The path to expertise.....	446
Gloria Stillman	
Accessibility of Applications Tasks.....	454
Paul Swan & Jack Bana	
Choices of Computational Strategies.....	462
Philip Swedosh	
Reducing the Incidence of Mathematical Misconceptions in 'Middle Band' Students.....	469
Noel Thomas & Joanne Mulligan	
Children's Understanding of the Number System.....	477
Tilahun Mengesha Afrassa & J. P. Keeves	
Differences between the Sexes in Mathematics Achievement in Australia.....	485
Theresia Tirta Gondoseputro	
The Cross-Cultural Perspective of Teachers' Beliefs and Their Influence on Teaching Practices: A case study of two teachers teaching secondary mathematics in Australia and Indonesia.....	494
Patrick Tobin, Alla Routitsky and Peter Jones	
Graphics Calculators in Victorian Secondary Schools: teacher perceptions of use.....	502
Jill Vincent & Barry McCrae	
Cabri Geometry: A catalyst for growth in geometric understanding.....	507
Elizabeth Warren & Steven Nisbet	
The Relationship between the Purported Use of Assessment Techniques and Beliefs about the Uses of Assessment.....	515
Jane M. Watson & Jonathan B. Moritz	
Longitudinal Understanding of Conditional Probability by School Students.....	522
Martin Watts, Sue Miller & Leo Crameri	
Mathematics: more time, more ticks!.....	530

Allan White	
Teacher Action Theories and the Use of Group Work in Upper Primary Mathematics Classrooms.....	538
Jacquelyn Whitland & John Pegg	
Exploring Diversity: Year 2 students' responses to questions concerning simple 2D shapes.....	546
Anne M. Williams	
Novice Student's Conceptual Knowledge of Statistical Hypothesis Testing.....	554
Shirley M. Yates	
Students' Optimism, Pessimism and Achievement in Mathematics: A longitudinal study.....	561
Abstracts of Short Communications	571
Author Index and Topic Index	579
